

RF-Keyfob

A very useful and handy device for end users to control their alarm system; it is no bigger than an average car key-fob yet this product delivers a wide range of features. Arm your system with the push of one button or if you prefer, key-in your User Code for extra security.

It also unsets, part-sets, toggles lights on/off etc. Nothing overlooked, nothing compromised.

- Two-way wireless communication
- Contains battery
