

WiFi Card

Plug-on WiFi only Unit for use with SecureComm

The WiFi Card is similar to the GSM-WiFi device except it uses a single communications path (i.e. a WiFi router) to communicate, via our cloud-based solution, SecureComm to the HKC App and SmartLink700 upload/download software. All alarms and alerts are notified to the user via the HKC App.

SecureComm

Features:

- Plugs directly onto Quantum 70 panel (version 4.0 or higher panel software required)
- Plugs directly onto SW-10270 panel (version 4.0 or higher panel software required)
- Works with HKC App
- Supports IP Reporting to Monitoring Centre/ARC
- Supports high-speed upload / download via SmartLink700
- Alarm reports from your system via smartphone app and SMS text messaging
- Single path via WiFi router (2.4GHz only)
- Can be configured to signal Monitoring Centre/ARC in the event of a loss of communication*
- No router programming required - true plug & play
- WiFi Card will automatically reconnect if the router is power cycled
- WLAN Standard: IEEE 802.11 b/g/n
- Quiescent Current: 20mA
- Temperature: -10 to +40°C
- Weight: 15g
- Size: 70mm x 50mm x 14mm
- EN 50136-1: S3 with 10 minute polling
- EN 50131-1: ATS 4, Class II
- BS 8243 & PD 6662
