

RF-SABB

Wireless External Sounder

Our RF-SABB external sounder is wireless and builds on HKC's proven performance and reliability.

It has the same siren circuitry and carries over many of the innovative features of previous generations of SABB's including a free logo-screening service and resin protected electronics. Even though it can operate totally wirelessly, it can run off a permanent 12V supply should you want it to.

SecureWave
868MHz Radio

- Two-way wireless communication
- Contains batteries
- Polycarbonate housing
- Strobe lens available in blue & red
- Horizontal & vertical mounting
- Resin protected electronics
- High intensity LED strobe
- Diagnostics mode for ease of fault finding
- Illuminated terminal blocks
- Alignment indicator
- Rawl plug, screw & screwdriver holders
- Available with individual company logos
- Permanent 12V input available
- No DIP switch settings required
- Batteries: 6x CR123A 3V Lithium
- Sound: 109dB at 1m
- Quiescent Current: 10µA
- Transmit Current: 41mA
- Strobe Current: 12mA
- Siren Current: 550mA
- Temperature: -25 to +60 °C
- Weight: 1,225g
- Size: 368mm x 228mm x 58mm
- EN 50131-4
- EN Grade 2
- Environmental Class IV
