

LAN-Card

Adapter Card for IP connection

The LAN Card communicates with SecureComm, our cloud based solution, via the HKC App and SmartLink700 software. SecureComm provides a heartbeat connection which will signal in the event of an interruption in the connection*.

All alarms and alerts are notified to the user via the Smartphone App (audible & text). The LAN Card can also be used to connect to SmartLink700 for Upload/Download and Remote Maintenance & Diagnostics. It supports static and dynamic addresses.

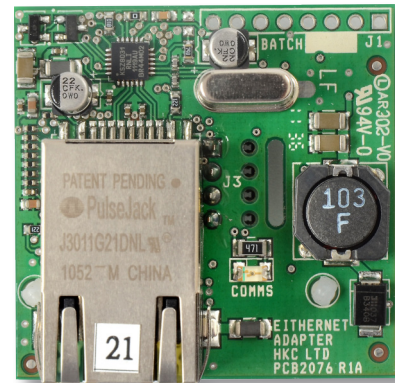

*Dependent on IP signal from Router

- Comes with the highest level of encryption
- Current: 20mA quiescent (50mA max.)
- Weight: 20g
- Size: 41mm x 40mm x 23mm
- Temperature: -10 to +40 °C
